

Annotations

Main or Landing page

1 Main or Landing pages are parent / hub page that gives a nice introduction about different types of Products being offered with a summary of underlying topics with navigation so users can easily jump to subtopics of interest , and some other general but relevant information.

Category Pages

2 Category pages are pages beneath the parent / hub page that addressed unique and individual topics relevant to office chairs.

Topics included a mix of product, philosophy, research, and opinions to give the reader a good overall perspective.

Category Sub Pages/ Detail Pages

3 A "category Sub page or detail page" is our name for a window that contains information about a specific items like a data product (or a set of related products), document, target, or plan.

Contents of a detail page vary. In most cases, there are a number of "views" available within the detail page via a menu bar.

Footer Pages Links

4 Footer Pages Links are the individual pages that need to be created.

Of course there will be a full site map in the footer of existing pages.
